

PRESS RELEASE

Fort Lauderdale, FL (Sept 10, 2024)

WELLCRAFT UNVEILS THE WELLCRAFT 38 T-TOP, REVOLUTIONIZING CENTER CONSOLES.

Wellcraft is thrilled to announce the launch of its all-new, innovative center console that combines spacious social areas, unrivalled performance, and dynamic driving pleasure. At 38'10" (11.85m), the Wellcraft 38 T-Top offers easy access to the water and is packed with entertainment features for thrill-seekers.

The Series' first model is set to make waves at the International Cannes Yachting Festival in September 2024, with additional debuts planned for the Düsseldorf and Miami Boat Shows in early 2025.

Built for Entertainment

The Wellcraft 38 T-Top sets itself apart with its superior entertaining features. The innovative swim platform offers unmatched water-access, while the boat boasts unparalleled seating capacity.

The aft cockpit lounge is the largest in its class. Two high-end fully equipped galley modules are available incorporating grill and spacious fridges. In addition, versatile removable table configurations provide unmatched comfort and functionality on the water. Equipped with a top-mounted tow point and ample storage spaces, the Wellcraft 38 T-Top is the ideal center console for watersport enthusiasts. Its dedicated fishing storage, rod holders,

and livewell ensure it also conquers the needs of avid anglers.

The wrap-around foredeck and comfortable C-shape seating provide a spacious dining area that enhances onboard social gatherings. It comes standard with the innovative table that can be lowered at the touch of a button to complete a sun pad or seamlessly integrate into the floor. This double-wide sun lounge provides additional comfort with integrated cup holders, armrests and handholds, making it one of the best seats onboard.

This model also comes with a fully equipped cabin including a double berth, a large and separate head compartment and shower.

Ambient lighting combined with the high-performance JL Audio sound system enhance the adventure, making it perfect for socializing with family and friends.

Built for Dynamic Driving

The Wellcraft 38 T-Top offers a safe, powerful and dynamic driving experience. This offshore performer combines exceptional power with optimized weight, delivering unrivalled speed and agility. Equipped with the latest generation of twin and triple outboard engines, it can easily reach speeds of up to 57mph (50knots).

A strong focus on optimizing the three-seated helm console ensures the driver an ergonomic, intuitive and immersive experience. The steering, throttles and hard buttons are ideally positioned for high-speed operation, while the twin 16" MFD screens offer comprehensive situational awareness.

Built for Confidence

The efficient hull design by Michael Peters delivers excellent seaworthiness at higher speeds, while a fully infused, one-piece hull and structural stringer ensure confident, offshore cruising. The standard joystick enhances maneuverability, offering easy handling in all conditions. Innovative optional features, such as the gyro stabilization driven by lithium batteries, ensure quiet, reliable stability without any exhaust.

In addition, the bold design of the vessel includes an innovative ventilation system that operates at the touch of a button, all while maintaining a clear field of vision for the driver.

Where dynamic driving meets a powerful yet safe driving experience. The Wellcraft 38 T-Top is perfect for sharing unforgettable moments in, on and around the water. More than a boat, it's a call to explore.
